## STREET LEVEL OPEN 2022

28TH MAY - 7TH AUGUST

---

The Street Level Open is a celebration of contemporary photographic image making in Scotland.

Since the last Street Level Open in 2019 the world has changed in unimaginable ways, and this exhibition is an opportunity to reflect upon the resilience and creativity of just some of the photographic artists working in the country today. The exhibition includes 100 photographers drawn from all over Scotland from open submission, who each embrace different facets of the photographic medium.

The exhibition is the 9th edition of the Street Level Open featuring work which has been made since 2020, embracing photographers of all ages and geographical location. This egalitarian approach has resulted in this year's Street Level Open being a truly dynamic and captivating exhibition.
